### SUMMARY OF DUTIES

This position is located in the Joint Forces Headquarters-State, Logistics Directorate (J-4/G-4), Surface Maintenance Facility. The purpose of this position is to plan, schedule, control, and monitor the status of equipment maintenance; and assist a higher-graded Production Controller. Establishes plans, schedules, and controls the maintenance and repair of a variety of vehicles and equipment such as combat vehicles, heavyduty engineering and mobile equipment, tracked vehicles, towed and self propelled artillery, communications and electronic equipment, quided missile systems, and small arms. Studies directives, modification work orders, and regulations as to their application in the unit. Designates and maintains current maintenance repair priorities by Force Activity Designator, pacing items, Equipment Readiness Codes (ERC) A, B, and C equipment type, available funds, commander's priority, state/national priorities, 9in the case of floods, fires, and mobilizations) and unit supported. Provides assistance to ensure that Modified Table of Organization and Equipment (MTO&E) or Table of Distribution and Allowances (TDA) reportable Line Item Numbers (LIN) are properly managed, reported and accounted for with respect to readiness reports, property accountability reports and system management. Analyzes repair methods and recommends control procedures to ensure that accomplishment of programs meet priorities and deadlines established by higher authority or support activities. In the absence of the higher graded production controller, ensures that unit CL IX accounts are funded, budgeted, and executed to maximize readiness; and performs demand analysis on CL IX expenses to determine proper PLL stock age to sustain facility mission requirements. May provide day-to-day technical guidance to lower-graded personnel assisting in the maintenance production or maintenance management processes. Performs other duties as assigned.
